

07/08/10 - 26th PCB Video Launch

The UNAIDS Programme Coordinating Board NGO Delegation are pleased to announce the launch of the first video charting the work of the NGO community on the governing body of the United Nations' AIDS programme.

<http://tinyurl.com/PCBNGOtheMovie>

The video includes some brief video highlights of this year's NGO Report, which captured the voices of over 1500 members of civil society talking about the impact of stigma and discrimination on the HIV response. The report can be viewed here.

The second half of the video is a musical slide show of the NGO intervention at the 26th meeting of UNAIDS PCB that took place on 22nd to 24th June 2010 in Geneva. It illustrates the range and impact of the NGO delegates and observers into this important meeting about the world's response to HIV.

Please help us share this video and promote awareness of the work of the PCB NGO Delegation and the wider NGO community that is speaking out for communities affected by HIV.

You can:

Share the video on your FaceBook

Promote the link via your Twitter

Forward this email to internet lists or your contacts

Copy the link into your Skype status

Click like and send comments about the video on YouTube and FaceBook to encourage others to view and share it

Videos of NGO speeches and interventions are available on the NGO Delegations' website and www.iMAXi.org.
